

Environmental Policy

2022

Heightsafe Systems Ltd (Heightsafe) is committed to the protection, and conservation over all aspects of environmental sustainability which we have control or influence. The Environmental Policy of Heightsafe is to ensure we recognise the impact that all our activities may have on the environment, and that our operations are carried out with a commitment to equitably meet sustainability and environmental needs.

Heightsafe places the subject of waste reduction, prevention, and pollution, including raw-earth materials, central to its operations. Every staff member has a responsibility for the associated environmental impact of their activities. This is tangible over the following areas: reviewing the life cycle of products, production, packaging, repair and maintenance and disposal; and sourcing and procurement from a sustainable perspective. Consequently, the lifecycle of each product Heightsafe delivers is considered and controlled.

Policy Framework

Heightsafe's framework to setting its objectives are to write these considering SMART steps to help the company achieve its aims, by making them:

- Specific.
- Measurable.
- Achievable.
- Relevant.
- Time-bound.

Our stated aims are to:

1. Protect the environment and the people in it.
2. Play a leading role in the promotion of best practice in our industry, raising awareness of environmental issues, and advocating exemplary individual practice within Heightsafe and beyond.
3. Comply with all relevant environmental legislation as well as ensuring that all Heightsafe' activities, including the purchase of goods and materials, comply with industry best practice.
4. Identify opportunities to reduce any environmental impact of our activities and adopt these changes where appropriate.
5. Maintain information about the environmental impact of the goods and services we supply and make this available to assist our customers to comply with environmental best practice.
6. Understand the sensitivities of our customers, including statutory and public concern about environmental issues.
7. Employ sound and confidential waste management practices, including compliance with the requirements of Site Waste Management Plans Regulations.

8. Require suppliers provide goods and services with minimal adverse environmental impact.
9. Set practical objectives for continuous improvement.
10. Respect our neighbours and local communities and contribute to the societies in which we operate.
11. Dispose and segregate waste output from the result of our activities in accordance with our waste carrier's license.
12. Risk assess the impact our activities and operations have on environmental sustainability.
13. Continually improve of Environmental Management System.

This Environmental Policy is regularly reviewed to ensure its continuing suitability.
